COURSE INFORMATION

Course Description  
Survey of electronic information resources in the health sciences, including databases and Web sources. Discussion of relevant controlled vocabularies and their use in formulating and executing search strategies. The course also includes an evidence based health care component whereby students learn to analyze critically the biomedical literature and determine reference and research relevancy.

Course Objectives  
Upon successful completion of this course, the student will:

1. Understand the basic principles involved in developing search strategies to retrieve citations to the biomedical literature;
2. Become acquainted with controlled vocabularies used to index the biomedical literature;
3. Become acquainted with reference tools utilized in health sciences information retrieval;
4. Develop an understanding of evidence based health care techniques employed to analyze critically the biomedical literature and determine reference and research relevancy.

Course Overview  
This course is designed to provide an overview of various health sciences electronic information resources as well as controlled vocabularies used to index the biomedical literature. Students will gain hands-on experience developing and executing search strategies. Students will gain
exposure to evidence based health care techniques employed to evaluate the literature and determine reference and research relevancy.

Topics to be covered:

1. Health sciences electronic information resources;
2. Controlled vocabularies;
3. Search strategy formulation and execution;
4. Evidence based health care.

STUDENT EVALUATION

Grading Parameters
This course is taught in distance education format. The majority of the course is conducted via Blackboard. It is expected that students will devote a considerable amount of time outside the formal class to study materials covered as well as become acquainted with the literature and reference tools.

There will be a series of exercises to be completed by students. These will be posted each week in Blackboard. Once completed, class exercises do NOT need to be returned to the instructor.

There will be a series of assignments distributed throughout the course of the semester. These assignments are based on information and resources covered in the class exercises and class readings. These assignments comprise the majority of the student’s grade. Completed assignments are expected to be returned to the instructor prior to or on the date noted on the assignment. Late assignments will only be accepted with prior permission from the instructor.

There will be a series of 8 assignments, a term paper, and a reflection paper required for the course:

Assignment 1 – Access Medicine Evaluation
Assignment 2 – Medical Subject Headings
Assignment 3 – Search Strategies and Execution
Assignment 4 – Research Study Design
Assignment 5 – Medical Subject Headings
Assignment 6 – Search Strategies
Assignment 7 – Search Strategies
Assignment 8 – E-Health Resource
Assignment 9 – Term Paper
Assignment 10 – Reflection Paper

Details for each assignment will be distributed along with the assignment according to dates indicated on Course Calendar. Each assignment will have a due date noted on it.

Grading Policy:

Class assignments are due on or by the due date noted on the individual assignments. The majority of the student’s grade is based on the cumulative total received on individual assignments. Late assignments will only be accepted with prior approval from the instructor.
Grading Scale
90 – 100 = A (Exceptional Achievement)
80 –  89 = B (High Achievement)
70 –  79 = C (Average Achievement)
0 –  69 = E (Failing)

Participation
Class participation constitutes 5% of the student’s grade. Students are expected to complete weekly exercises and readings.

Submission of Course Assignments
Course assignments should be submitted via e-mail as Word attachments. Include the course number (i.e., LIS690) and assignment number (e.g., assignment #1) in the subject line. **BE SURE TO INCLUDE YOUR NAME ON ALL ASSIGNMENTS.**

Assignments are due by midnight of the due date noted on each assignment.

Late work will only be accepted with prior permission of the instructor.
TECHNOLOGY INFORMATION & RESOURCES

Distance Learning Students are expected to have a minimum level of technological acumen and the availability of technological resources. Students must have regular access to a computer with a reliable Internet connection and audio capabilities. Internet Explorer 7 (IE) or Firefox 2.x are the recommended browsers for those using a Windows-based PC. Those using Firefox 3.x may encounter problems with assignment uploads. Those using an Apple computer with MAC OS X (10.5.x) may use Firefox 3.x or Safari 3.x.

Please be certain that your computer and/or browser allow you to view Adobe Reader documents (.pdf). Microsoft Office and other software products are free for students: https://iweb.uky.edu/MSDownload/.

As your instructor, I am your first go-to person for technology problems. If you need more immediate assistance, please contact TASC or UKIT.
