LIS 643 ( Archives and Manuscripts Management) Syllabus, Fall 2017

Supervisor: Stacie Williams, Digital Learning and Scholarship Team Lead, Case Western Reserve University, Cleveland, Ohio
Phone: 414-526-5595 Email: smariwilliams1979@gmail.com

Course Description
This course is designed to cover the servicing, management and care of manuscript and archival material. Attention will also be given to arrangement and description, and ethical concerns around stewardship. Prerequisite: LIS 602 or consent of instructor.

Course Objective
Students will become familiar with core archival principles, theories and practices. These include acquisition, arrangement and description, access and outreach, and preservation. The course discusses the importance of archives in the management of knowledge for society and organizations.

Grading Rubric
There will be two major assignments for the course, in addition to some “in-class” work. The first is a group project. Groups will be assigned within the first week of class. Everyone in the group will receive the same grade and all of the assignments will build on each other for an interactive learning experience. The final project—due from every student—is a finding aid based on the group project. Students will also be graded on participation, which includes the comment board and weekly readings.

All papers and assignments will be evaluated for organization, clarity and writing appropriate for *graduate-level work*. Assignments should be proofed for spelling, grammar, and presentation and follow The Chicago Manual of Style. Up to 10 points may be automatically deducted for work that fails to meet this standard. Late submissions will receive a reduction of a half letter grade per day after the due date.

Grading Scale
[90 points – 100 points] = A (Exceptional Achievement)  
[80 points – 89 points] = B (High Achievement)  
[70 points – 79 points] = C (Average Achievement)  
[0 – 69 points] = F (Failing)

Assignments will be due on Fridays by 5:00 p.m., without exception. Given that everyone will be working in a group, name a point person to turn in the assignments. Papers should be submitted as a Microsoft Word document, however, I will *also* accept Google documents this year.

Assignment #1
**Group 1 (Appraisal, arrangement & description):** This group will create a processing plan for a small born-digital collection (We Think Alone). Group will then write a three-page white paper explaining why they chose to arrange and describe the collection as they did and use current literature to make their arguments.
Group 2 (Preservation): This group will decide how to preserve the collection and make a series of recommendations taking into account the collection’s format and needs over time. This group will write a three-page white paper explaining the process and current trends or issues with the procedures. Group must also explain their workflow and quality control process. Discuss pros and cons.

Group 3 (Reference and Access): This group will write a three-page white paper discussing different ways the collection could be accessed (or not) or used in a reference capacity, comparing it with similar collections and using rationale from current literature. Discuss pros and cons.

Group 4 (Outreach): This group will create a proposal for archival advocacy that would center on the collection’s importance to the community, and develop three user personas to whom you would make your pitch. The three-page white paper should explain the course of action and link it to current professional trends.

Group 5 (Legal Issues/Ethics): This group will analyze potential ethical, legal or physical issues related to the collection. Write a three-page white paper that briefly describes a SWOT (strengths, weaknesses, opportunities and threats) analysis of the in-class collection, and steps the repository could take could avoid any threats and how to utilize strengths.

* A white paper explains the results, conclusions, or construction resulting from some organized committee or effort. In academia, a white paper will usually advocate a certain position or solution.

**Current literature refers to scholarly literature, the likes of which can be found in such peer-reviewed or open-access journals as American Archivist, Provenance, Archivaria, Archival Issues, Collections: A Journal for Museum and Archives Professionals, The Reading Room, etc. You are not limited to these, but these are the types of resources you should use when stating your case in white papers and Assignment 2. If you are having trouble finding appropriate literature, please contact me.

Assignment #2: Create a finding aid, including biog/hist note, scope and content note, and at least three subject headings for the We Think Alone collection. Use Chicago Manual of Style and Library of Congress authorities formatting. This can be revised for up to four extra credit points.

Percentage of final grade
- Assignment 1: 20 points
- White Papers: 25 points
- Assignment 2: 40 points
- Participation: 15 points (participation grade includes the “in-class” exercises)

Course Policies
Policies concerning academic integrity, excused absences and academic accommodations due to disability are available online at: http://ci.uky.edu/lis/sites/default/files/policies.pdf.

Logistics
This will operate as a flipped classroom. Students should begin their weekly readings on Monday, the lectures—which will be audio files, playable on any desktop media player—will be posted Wednesday, and all comments about both should be posted on the discussion board by that Friday. This does not mean that you
can only post on Fridays, however. You may post to the board all week, but everything relevant to that week’s lecture and discussion should be up by Friday in order to receive participation credit for the week.

### Schedule

**TECHNOLOGY INFORMATION & RESOURCES**

Distance Learning Students are expected to have a minimum level of technological acumen and the availability of technological resources. Students must have regular access a computer with a reliable Internet connection and audio capabilities. Internet Explorer 7 (IE) or Firefox 2.x are the recommended browsers for those using a Windows-based PC. Those using Firefox 3.x may encounter problems with assignment uploads. Those using an Apple computer with MAC OS X (10.5.x) may use Firefox 3.x or Safari 3.x. Please be certain that your computer and/or browser allow you to view Adobe Reader documents (.pdf). Microsoft Office and other software products are free for students: [https://iweb.uky.edu/MSDownload/](https://iweb.uky.edu/MSDownload/).
As your instructor, I am your first go-to person for technology problems. If you need more immediate assistance, please contact UKIT.
