

## **Department of Energy (DoE)**

### **Who Must Report:**

PI and senior/key personnel, including sub-awardees, must report current and pending support.

### **What to Report:**

DOE requires full disclosure of current and pending support from domestic and non-domestic sources.

Unlike NSF and NIH, DOE requires research gifts, with or without terms and conditions, to be included on Current and Pending Support. DOE also requires the use of the Current and Pending Support format approved by NSF.

Please note that specific requirements for other DOE Offices may differ.
